Introductory Chinese Weekend Classes

(Ages 6 - 15)

Give your child a head-start in an international career!

Children who are bilingual:

- Bilingualism gives you the educational advantage.
- Languages are highly valued in the workplace.
- Being bilingual opens up new social opportunities.
- Speaking more than one language makes you more open-minded.

This introductory course is a program designed to help your children learn through immersion in regular conversation with a native speaker.

Our mission is to help your kids learn Chinese and become comfortable with everyday conversation. We will help your child build a foundation on which they can construct a strong understanding of the Chinese language.

Your children will learn through fun interactions, role-playing and games, so that they can learn like Chinese children do. We believe in making learning fun! Our mission at Bay Area Chinese Language School is to provide an opportunity for your children to get started with Chinese, one of the most useful second languages in the world.
